Reviewer comments:

Audio:

Congratulations! We are happy to review the world of Information Technology together. We are sure that you will be satisfied with what you will learn about IT devices and applications. In this opportunity, we will define Information Technology and a computer which is one of the main components of the IT infrastructure.

Computer Devices

Graphic info:

Choose some images similar to the ones that I have provided.

Navigation:

Pictures appear when mentioned in voiceover.

Reviewer comments:

Audio:

There are several kinds of computer devices, such as laptops, tablets, smartphones and computers.

Hardware

Software

Graphic info:

Choose some images similar to the ones that I have provided.

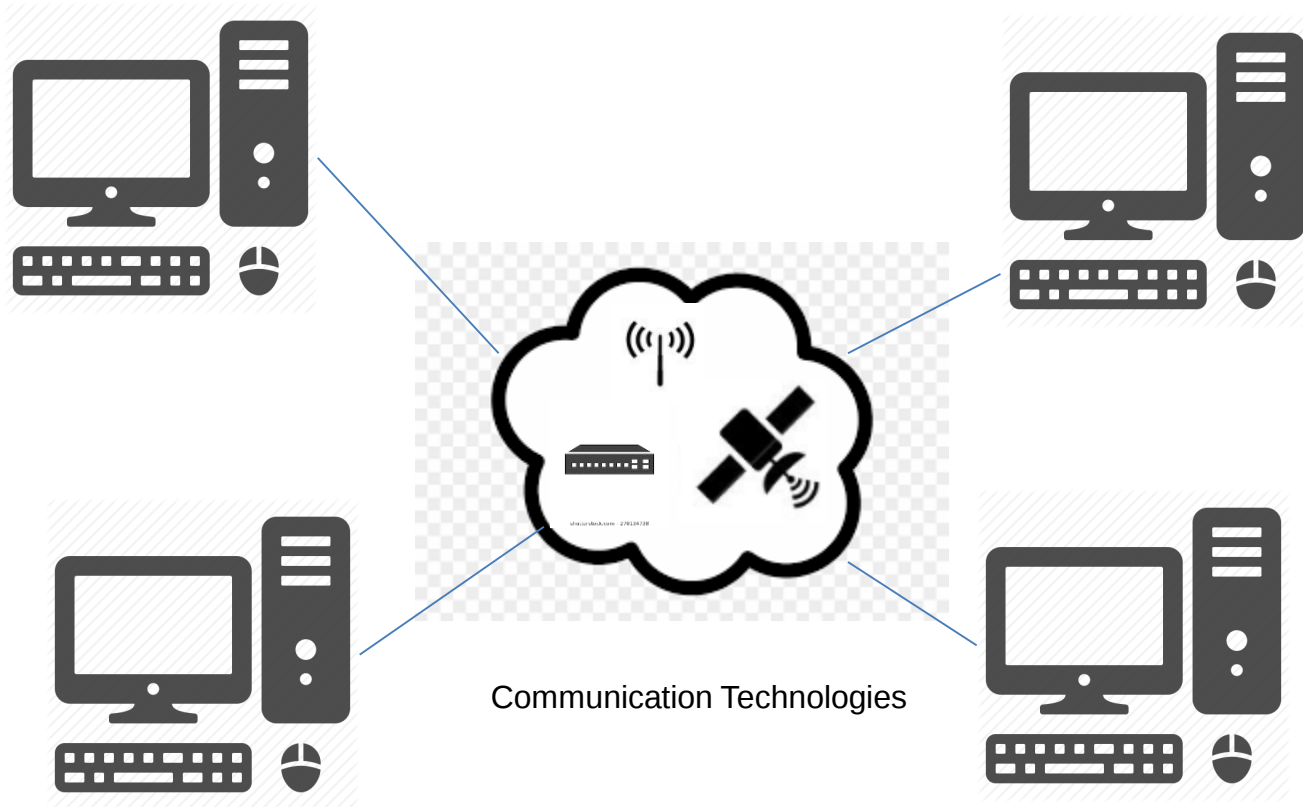

Navigation:

Text and pictures appear when mentioned in voiceover.

Move to the next screen after the audio is finished.

Reviewer comments:

Audio:
Each computer device includes some physical features called Hardware and a set of computer programs called Software.

**Graphic info:**

Choose some images similar to the ones that I have provided.

Navigation:

Computers appear first, then the cloud followed by the pictures inside it.

Text is displayed at the end of the audio.

Move to the next screen after the audio is finished.

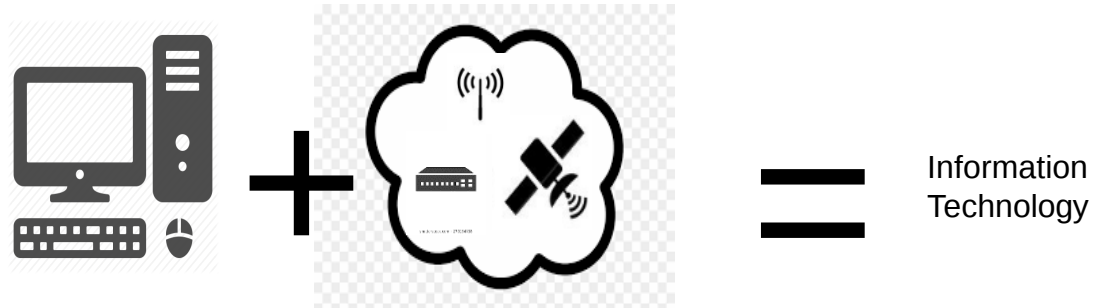

Reviewer comments:**Audio:**

We would like not only to identify the computer devices but also to define the way they exchange data by using satellites, wireless networks, phone lines, and other communication networks. Those examples are part of Communication Technologies.

Project name: Introduction to IT

Screen title: Information Technology

Screen #: 5/5

Graphic info:

Choose some images similar to the ones that I have provided.

Navigation:

Pictures are displayed from right to left when mentioned in voiceover .

Text is shown at the end of the audio.

Reviewer comments:

Audio:

The Information Technologies include both the computer devices and communication technologies. IT is defined as the use of any technology which helps to produce, store, communicate and distribute information.
